

LOIVA®

Manufactured By:

NKN (Korea)

FD Series

FD-35 Industrial Sewing Machine Attachment Pneumatic Edge Guide for Single Needle Machine.

FD-45 Industrial Sewing Machine Attachment Pneumatic Edge Guide for Overlock Machine.

Specifications

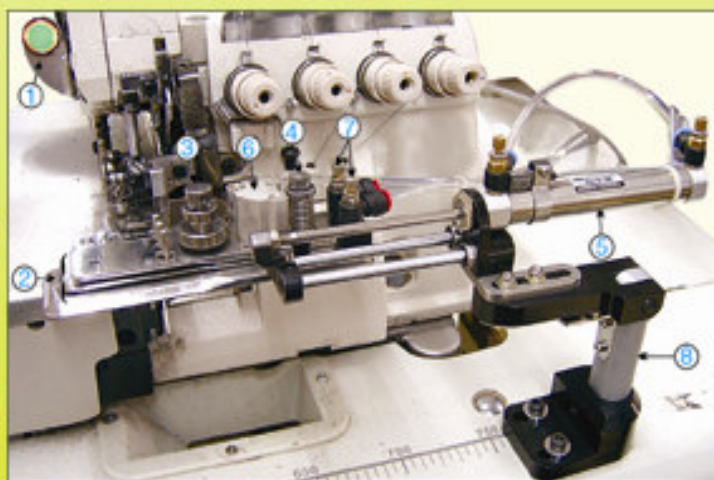

Dimension	330 x 200 x 160 mm
Air Consumption	0.75 L/Min or 0.03 CFM
Power	240V
Air Pressure	4~6 kg/cm ²

Application

Pneumatic edge guide makes seaming operations more productive and accurate. By automatically keeping seams perfectly aligned, the operator can sew continuously through the length of material, instead of taking frequent stops to re-align the edges. Seam width can be quickly adjusted.

Can be used in different types of sewing machines (to be specified while ordering)

Uneven Edges

Even Edges

Without using Edge Guide

Using Edge Guide

Uneven Seam Width

Even Seam Width

1. On/ Off Switch of Edge Guide.
2. Fabric catcher for two different plies.
3. Fabric thickness controller for different plies.
4. Tensioner for catcher.
5. Pneumatic cylinder to move the carriage front & back.
6. Pneumatic cylinder to move the catcher open & close.
7. Air control valves.
8. Pneumatic edge guide stand (for Overlock).
