

LOIVA®

LV-2700 CW

FULLY AUTOMATIC MULTI NEEDLE CHAIN STITCH MACHINE
FOR MAKING WAISTBAND WITH INTERLINING PRESS

Application:

To make Waist Band Interlining of all kinds of Trousers.

Specification:

Stitch Type	Multi Needle Chain Stitch
Heater Power	10KW x 2pcs 220V
Temperature	Adjustable Temperature 0~300°C Average Usable Temperature Adjust temperature according to fabric & fusible 100~150°C
Air Pressure	4.0 Kgfl cm ²
Available lifting distance of Upper Belt	15mm
Belt Size	Upper: 1390mm Lower: 1520mm
Standard Option	Auto winder with yard meter & tape hanger
Option	1 Automatic thread-breaking sensor 2 Folder 3 Reverse System

Features:

Adapted to Multi-Needle Chain Stitch Sewing Machine, Sewing, Fusing, Winding & Counting will be done at the same time.

No Puckering nor Bibbing even after Washing, Owing to Air Pressure & Press Heaters.

No Puckering, as Automatic Tension Controller makes the best sewing condition, regardless of stitch length.

Upper [Top] belt of the press can be lifted in order to prevent the fabric from being burnt or hurt, when the sewing machine should be stopped.

As Fan Cooling System makes the fused fabric be cooled quickly, perfect fusing without variation.

Dual Roller makes the fused fabric not to be curved. Therefore incredible effect of highest quality lowest human power, shortest production process & best productivity can be secured.
